Houston, TX | 979-236-4789 | brandnpatterson@gmail.com | [LinkedIn](#) | [GitHub](#)

SUMMARY

Experienced Senior Software Engineer of 7+ years with a proven track record of delivering industry-leading user interfaces with an emphasis on engagement, scalability, and performance. Extensive proficiency in technologies such as JavaScript, React, Vue, Python, and Django with a passion for product development, collaborative teamwork, and innovative solutions.

EXPERIENCE

Muck Rack

Remote

Senior Software Engineer, Front End

Sep 2019 - Present

- Architected and developed enterprise-level front end applications using Vue and Pinia, delivering high-performance software used daily by top tech companies.
- Engineered robust backend REST APIs with Python, Django, and MySQL, ensuring reliable data management across various interfaces.
- Collaborated with designers and product managers to translate intricate wireframes into impeccable code, consistently seeking to improve code quality, UX, and accessibility.
- Demonstrated leadership by mentoring and guiding a team of developers, encouraging technical best practices, writing documentation, and conducting code reviews.
- Ensured application reliability and stability through rigorous unit testing with Django, Jest, and Vue test utils, supporting a seamless user experience.

Square 205

Remote

Lead Software Engineer

Apr 2019 - Sep 2019

- Collaborated closely with developers, designers, project managers, and clients to thoroughly analyze product requirements and promptly deliver tailored solutions.
- Developed interactive single-page applications and features with React and React Native.
- Designed and implemented REST APIs which integrate with third-party APIs.
- Supported junior developers and interns with development processes and best practices.

Sabre Corporation

Southlake, TX / Hybrid

Front End Developer

Sep 2017 - Apr 2019

- Played a key role in the development and optimization of luxury hotel websites utilized by millions of users worldwide.
- Implemented responsive design principles to ensure a seamless user experience across devices and screen sizes.
- Collaborated with cross-functional teams to integrate front-end solutions with back-end services.
